

IJASCOIN

INCENTIVIZED UTILITY TOKEN

((IJC))

IjasCoin Whitepaper

V. 04 | LAST UPDATE 11-21-2020

ABSTRACT

IJASCOIN (IJC) is a Blockchain-Based Utility Token, specifically designed to be used as an INCENTIVIZED UTILITY TOKEN, and accepted as an electronic reward means for all who consider Ijascode HandsOff System as a platform to tokenized any Proof-of-Activity easier, faster, effective, secured, traceable and as rewarding as possible, effortlessly. IJC Token is owned and backed up by a real company with an SEC REG A+ Qualification (a separate active IPO) and Better Business Bureau (BBB) A+ Accredited.

IjasCoin is the ERC20 token that aims to become the central hub or method to avail affordable, transparent, faster and safer digital marketing system and services through the Ethereum blockchain and to access the ecosystem of services provided by the IJASCODE platform. The adoption of cryptocurrencies will impact the way we do digital marketing in the future, and IjasCoin is poised to play a leading role in this new era of wireless digital advertisement.

Who is IJASCODE?

Oxnard California, USA based company, dedicated to provide EFFECTIVE HANDSOFF MARKETING SYSTEM to any type of business by offering advanced yet simple and affordable marketing solutions that works. Our motto is

“SHARE WITH NO FEAR!”

Coin name means a lot to us:

I – means YOU or I

JAS – originated in Western Cape, South Africa, it means anything GREAT or SATISFACTORY.

Coin – means your “Ijascode System” Coin

“I HAVE A GREAT COIN!”

IJASCODE is a platform that provides an ecosystem of Incentivized digital services primarily through “IjasApp Physical Web” Free mobile app, available on IOS and Android operating system, that communicates with wireless proximiner devices to perform the verification process and reward anyone who accomplished any proof-of-work within Ijascode platform while allowing full transparency and traceability of every activity inside the system.

IMPORTANT NOTICE

The purpose of this Whitepaper is to present IjasCoin and the related IjasCode Ecosystem to potential customers, partners and any related future plans or possible Initial Public Offering (ICO). The information set forth below may not be exhaustive and does not imply any elements of a contractual relationship. Its sole purpose is to provide relevant and reasonable information to potential owners or users of the IjasCoin for them to determine whether to undertake a thorough analysis of the IjasCode, the IjasCode Ecosystem and the companies belonging to it with the intent of purchasing the IjasCoin.

Nothing in this Whitepaper shall be deemed to constitute a prospectus of any sort or a solicitation for investment, nor does it in any way pertain to an offering or a solicitation of an offer to buy any securities in any jurisdiction.

The IjasCoin is a utility token. It is not intended to constitute securities or financial instruments in any jurisdiction.

This Whitepaper does not constitute or form part of any opinion on any advice to sell, or any solicitation of any offer by the contract owner of the IjasCoin (the "IjasCoin Provider") to purchase any IjasCoin, nor shall it, or any part of it, nor the fact of its presentation form the basis of or be relied upon in connection with any contract or investment decision. Although Ijascode Company has its own IPO with SEC Regulation A+ Qualifications, IjasCoin is a separate entity and it has not been registered under the Securities Act or any other securities laws of any state of the United States or the securities laws of any other country, including the securities laws of any jurisdiction in which a potential coin holder is a resident. No regulatory authority has examined or approved of any of the information set out in this Whitepaper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with.

The IjasCoin cannot be used for any purposes other than those provided in this Whitepaper. The IjasCoin is not intended for sale or use in any jurisdiction where sale, exchange or use of digital tokens may be prohibited. The IjasCoin confers no other rights in any form, including but not limited to, any ownership, distribution (including but not limited to profit), redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights, other than those specifically described in this Whitepaper.

Certain statements, estimates and financial information contained in this Whitepaper constitute forward-looking statements or information. Such forward-looking statements or information involve known and unknown risks and uncertainties, which may cause actual events or results to differ materially from the estimates or the results implied or expressed in such forward-looking statements. This Whitepaper can be modified to provide more detailed information.

This English language Whitepaper is the primary official source of information about the IjasCoin. The information contained herein may from time to time be translated into other languages or used during written or verbal communications with existing and prospective customers, partners etc. During such translation or communication, some of the information contained herein may be lost, corrupted, or misrepresented. The accuracy of such alternative communications cannot be guaranteed.

In the event of any conflicts or inconsistencies between such translations and communications and this official English language Whitepaper, the provisions of this English language original document shall prevail.

1. IJASCODE COMPANY MISSION AND VISION

1.1 - Mission Statement

To help business owners, professionals, direct sellers, networkers or anyone who wants to INCENTIVIZE their business process or brilliant ideas through our HandsOff Proximity System, effortlessly.

To reward everyone using IjasApp Mobile App fueled by the latest Incentivized Digital Cryptocurrency Token under Ethereum Blockchain System.

To serve as a VEHICLE for anyone looking for a unique business-model ecosystem to achieve their target goals and be the company that truly cares and rewards people beyond their expectations.

1.2 - Vision Statement

To become the CENTRAL HUB ECOSYSTEM combining the largest industries in one platform fueled by the incentivized reward digital token called "IjasCoin".

2. UNDERSTANDING IJASCOIN TOKEN

2.1 IJASCOIN TOKENS IN A NUTSHELL

IjasCoin will serve as a reward token for any proof-of-work anyone completed within IJASCODE Ecosystem to trade or purchase any products and services, and soon be able to exchange into major cryptocurrencies available externally. IjasCoin is supported by many major ewallet platforms to hold IJC tokens securely such as Ethereum Blockchain itself, TRUST – Ethereum Wallet (Third part application) and MyEtherWallet (www.myetherwallet.com) that allows user to store, send and receive, and track all history of Ijascoin Token easily.

2.2 IJASCOIN ACCUMULATION & PROXIMINER

It's a simple and straightforward process! We offer multiple ways to mine and earn it.

A) - The simple way, by downloading and using our free mobile application as a verification tool to validate the communicate with any Ijascode Proximiner Devices.

Proximiners are any nearby devices, equipment or machines that are capable of sending BLE (Bluetooth Low Energy) signal such as Ijascode Flagship Handsoff Round device,

smartwatches, tablets, mobile phones, bicycles, cars, and machines, or in short, pretty much anything that can be programmed or enhanced by using IjasCode API platform.

For instance, meet Cindy, a real-estate agent trying you do an open house for one of her clients, she is using her Ijastablet proximiner to send house information to anyone nearby IjasApp users. In this scenario, all app users are accumulating IjasCoin tokens just by connecting and browsing Cindy's adz about the house, while on the other hand, Cindy is also receiving the incentivized token for every connected user.

B) - The fun way! Just by using any Ijascode Online and Offline Services such as IjasAdz, IjasShop eCommerce, IjasWalk Wellness, and soon, other industries partnering with Us, you also collect Ijascoin Tokens. When the required parameters or proof-of-work setup by the Ijascode System or Proximiners are satisfied, you get paid through Digital IjasCoin Tokens, limitlessly.

So, next time that you visit your favorite restaurant or beauty salon, ensure that you have IjasApp installed and ready to receive your free reward IjasCoin Tokens or in the future, try to buy your supplies online through IjasShop and get paid.

2.3 MAJOR BENEFITS OF USING IJASCOIN

- A)** Incentivized System – get rewarded for every proof-of-work with ijascode system.
- B)** Ijascode Market – with IJC, now you have access to Ijascode marketplace.
- C)** Accumulate Faster – mining token has never been easy, fun, and rewarding. Is now with IJC!
- D)** Multi-Industry – IJC can be utilized by any industry. Be incentivized through Ijascode.
- E)** Safe and Trusted – decentralized, tested and safe under Ethereum blockchain.
- F)** Unlimited Potential – sky is the limit! movement with so great potential to grow, exponentially!

The potential is borderless, limitless, and unimaginable! Now that everything is becoming tokenized, Ijascode believes that the value of IjasCoin can go beyond expectations. Similar to popular Coins or Tokens out there in the market but backed up by a real company, great leadership and already has working products and services, and well documented.

2.4 PROBLEMS AND CONCERNS

Globally, almost all smallest or largest industries in the world, whether customers on the one side, and business owners on the other side, rely on the traditional way of transacting business. For instance, in former times, traditional marketing was the most popular method of hitting the market for more exposure, particularly in the form of television, radio and magazine, which is very expensive, lack of timeliness, harder to target audience, less information and most of the time it is very slow and ineffective because of the obvious reasons that majority of the populations are in fast-phase Digital Marketing.

Those old-school approaches have drastically and continuously been replaced by internet adz-giants and online companies such as Google, Yahoo, Facebook, YouTube channels and more companies, which nowadays, almost all businesses are being part of the growing Digital Marketing System.

Although they may provide good results and flexibility, however the process is still very expensive, overwhelming for non-tech savvy people, due to popularity expect higher competition, and the most crucial issue is that every transaction is paid by the value of the bank notes issued by the different countries rely on the trust that the respective country can pay its bills, only this is less sure than in former times. Especially in less developed countries, the trustworthiness of legal tender moves towards zero.

The other major concern is the lack of incentive or reward program that can be utilized by any individuals, small or big companies, and whoever needs to send/receive Tips, on real-time and effortlessly, for doing such an awesome job. A complete non-bias incentivized digital system that is available for anybody regardless of their background, educational attainment, race or ethnicity, gender and lifestyle, and to use to trade for any type of services and transactions, or simply to reward those individuals who really go out there and do the leg-work all the time.

2.5 IJASCOIN SOLUTIONS

Have you ever wondered what it feels like living in a community where every time you make any effort or work for anything that you usually do, you get rewarded or incentivized? How about every time you walk and burn calories, promote business offline and online, monitor pets, turn on tv, listen to your favorite songs or simply just by opening your fridge because you're hungry, you get rewarded and earn something similar to popular tokens in the market such as bitcoin, Ethereum and Litecoin that you can exchange for almost anything, digitally?

In this situation, the IjasCoin Token perfectly meets worldwide needs because it is a kind of Cryptonized and Incentivized Utility Token. Each token represents an imaginary certain level of IjasCode products and services, Ijascode Partners and their businesses, and all users who

believe in IjasCoin's potential and value, whereby a certain quantity of IjasCoin Tokens can be exchanged for pretty much anything within Ijascode System including the IjasShop eCommerce, IjasAdz Marketing, IjasWalk Wellness or any solutions in the form of Cryptocurrency. Furthermore, it will be made exchangeable for other fiat currencies and cryptocurrencies worldwide in the future.

The IjasCoin Token can be transferred borderless, cost-efficiently, securely and in real-time. Its value is predictable because the value of Ijascode Marketing System does not change often, or could possibly change in the future, but will be determined ahead of time, and everybody has an idea about its stability. Therefore, the IjasCoin can become generally accepted worldwide. Currently, more than 1,500+ partners from more than 4 countries have already bought IjasCode HandsOff System Packages including our proximiner devices flagship round device, smartwatch and tablet, and the company is reaching out to more possible countries to open. Our Free "IjasApp Physical Web" proximiner app is getting more downloads and popularity every day. Ijascode Company also just acquired Securities and Exchange Commissions (SEC) Regulation A+ Qualification, BBB A+ Accredited, featured in Kingdom Life - KDAR 98.3 FM, God Life Magazine, and partnered with prestigious companies. It is therefore obvious that with these documentations, potentials, movements and customer basis, the IjasCoin itself will achieve a high market capitalization and demand. It will write a success story and like company's motto we **"Share With No Fear"**.

The visionaries behind the idea to create the IjasCoin are Mr. Jayson Maranan Panopio, a Senior Software Engineer and had worked with many top fortune 500 companies, an entrepreneur, one of the fastest Senior Vice Presidents promoted from his past Network marketing company, he is the founder and CEO of IjasCode HandsOff Marketing System, and his co-founder Mr. Edilberto Partida, a professional networker, seasoned and well-experienced top-leader from different successful companies.

The IjasCoin is based on the Ethereum blockchain protocol. Therefore, it is safe, cost-efficient and fast, and allows for the use of smart contracts.

2.6 IJASCOIN TECHNICAL DETAILS

The "IjasCoin" is based on the Ethereum lockchain protocol. Therefore, it is safe, cost-efficient and fast. Furthermore, it allows to use smart contracts within its protocol.

[Check Out IjasCoin Token in Ethereum Blockchain](#)

Token Name:	IjasCoin
Token Name Meaning:	IJASCoin (I Have a Great Coin)
Ticker Symbol:	IJC
Currency Symbol Image:	
Company Self Evaluation Price:	1 IJC for USD \$0.015
Exchange Estimated Initial Price:	1 IJC for USD \$0.020
Maximum IJC Produced:	28 Billion (Technical Limit)
Maximum IJC as Incentive:	12 Billion
Maximum IJC for Trading:	8 Billion
Estimated Company Reserve :	5 Billion
Estimated Token To Be Burned:	3 Billion

3. ROAD MAP

The following deployment plan shall be followed in the future:

IJASCODE CORE LEADERSHIP TEAM

5. THE IJASCOIN PROXIMINING AND REFERRALS

5.1 PROXIMINING

PROXIMINING or Proximity mining is the process of earning IjasCoin by completing any proof-of-work set up by the **PROXIPRENEUR**.

PROXIPRENEUR can be a company, private entity, Ijascode partners, daily IjasApp users or anyone within the Ijascode Ecosystem.

Every time someone's action is verified and accepted by Ijascode System through IjasApp Physical Web Mobile app or any proximining platforms available in Ijascode Community, IjasCoin token will be deposited directly to the account on real-time.

For instance, using the Ijascode free IjasApp mobile application, anyone can scan the area for any nearby Proximiner devices and when it connects through the Bluetooth Low Energy (BLE) signal, mining process starts to happen and based on the parameters set up by the proxipreneur for that particular task or event determines the amount of IjasCoin token to be mined or collected.

5.2 REFERRALS

With the IjasCoin Referral Payment System, people are rewarded who refer other potential IjasCode member to either download our free mobile IjasApp or buy Ijascode products and services. For every IjasApp download and registration, the system generates a personal referral code which will be displayed prominently in the IjasApp profile area or if its Ijascode Package transaction, referral code can be found at the main Ijascode main website. By sharing this code or link through e-mail, social media or common mobile messengers, you have lots of chances to earn more IjasCoin tokens.

IjasApp tracks every direct referred user and assigns this user to its referrer, however, on the package referrals, Ijascode Backoffice handles all direct and generational referred users. Besides that, users can track the status of each referred friend in real time.

The commission rules are as follows:

With IjasApp Referral Program

- You will be paid a one-time 500 IJC direct referral bonus for each referred user. This bonus may change based on the supply and demand of the IjasCoin Token.

With Ijascode Package Referral Program

- You will be paid a direct and generational bonus depending on the Ijascode package sold. Each package comes with its corresponding amount of token incentive and subject to change based on the supply and demand of the IjasCoin Token.

As stated in the token technical details diagram, the incentive dedicated token is limited to 15,000,000,000 IJC. If the incentive pool is exceeded there will be no further referral bonuses paid. In this event, you will be informed via e-mail, the main Ijascode webpage and via the client area.

6. HOW TO BE AN IJASCODE MEMBER?

There are 3 types of memberships:

- Customer** – acquire any IjasCode products and services such as proximiner device package, be a certified partner in one of these platforms; IjaAdz, IjasShop eCommerce and future services.
- Affiliate** – by opting in to the program as an IjasCode Independent Marketing Affiliate and by acquiring any IjasCode products and services such as proximiner device Packages, IjaAdz, IjasShop eCommerce Seller and future platforms.
- Standard Free Platform User** – by downloading our Free IjasApp mobile application and submitting your registration, you agree to be part of the IjasCode Community and position yourself to receive free IjasCoin incentives as a tokenized form of payment or reward.

7. REGULATORY & RISK FACTORS

7.1 Regulatory

The IjasCoin Token and the IjasCoin Ecosystem comprise a large set of activities that may be subject to regulatory scrutiny in various territories. To the extent required by the respective applicable laws, activities undertaken, and services performed shall be regulated. However, it cannot be excluded that the need of a regulation will not be recognized for a number of reasons. The IjasCode HandsOff Marketing System, which issues the IjasCoin and is based in Oxnard, USA, is unregulated.

As far as the IjasCode or its advisors will encounter legal uncertainties, these will be resolved with the responsible regulatory bodies involved to the extent legally possible and practicable.

By sorting out any legal or regulatory exposures from the very beginning, the group is aiming for full transparency towards investors as well as regulators in order to achieve the highest level of investor confidence as well as legal and regulatory compliance possible.

7.2 Risk Factors

When open in Exchange for trading, the purchase of the IjasCoin involves a high degree of risk, including but not limited to the risks described below. Before acquiring the IjasCoin, it is recommended that each participant carefully weighs all the information and risks detailed in this Whitepaper, and, specifically, the following risk factors. Please further note that the Ijascode Ecosystem may be subject to other risks not foreseen.

7.2.1 Taxes

Holders of the IjasCoin may be required to pay taxes associated with the transactions contemplated herein. It will be a sole responsibility of IjasCoin holders to comply with the tax laws of the jurisdictions applicable to them and pay all relevant taxes.

7.2.2 Dependence on Computer Infrastructure

The IjasCoin Ecosystem depends on the functioning of the Ethereum Blockchain System, Ijascode Ecosystem, computer hardware, and the internet. This implies that no assurances can be given that a system failure would not adversely affect the use of the IjasCoin. Despite the intended implementation of all reasonable network security measures, the processing center servers are vulnerable to computer viruses, physical or electronic break-ins or other disruptions of a similar nature. Computer viruses, break-ins or other disruptions caused by third parties may result in interruption, delay or suspension of services, which would limit the use of the IjasCoin.

7.2.3 Smart Contract Limitations

Smart contract technology is still in its early stages of development, and its application is of an experimental nature. This may carry significant operational, technological, regulatory, reputation and financial risks. Consequently, it cannot be ensured that smart contract to the extent used will properly work or that it contains no flaws, vulnerabilities or issues which could cause technical problems and, thereby causes damages.

7.2.4 Insufficient Penetration of the Market

The success of the IjasCoin and the IjasCoin Ecosystem depends on the ability to be accepted as a payment means and payment system by a substantial number of users. Although the Ijascode Foundation has already access to far more than 400 plus people who owns Ijascode HandsOff Marketing System and it can be expected that these owners or customers will also make use of the IjasCoin, it cannot be excluded that the required penetration of the global market and a substantial market capitalization of the IjasCoin cannot be achieved. For example, users might not be convinced that a regular-currency-fiat-based payment system is preferable in comparison to other payment means, or it may turn out that the use of the IjasCoin is not convenient because the number of points of acceptance will not be sufficient. In such case, the value of the IjasCoin would suffer; also, a total loss cannot be excluded.

7.2.5 Disclosure of Information

Personal information received from holders of the IjasCoin, the information about the number of coins owned, the wallet addresses used, and any other relevant information may be disclosed to law enforcement, government officials, and other third parties when the IjasCode Foundation is required to disclose such information by law, subpoena, or court order. The IjasCode Foundation shall at no time be held responsible for such information disclosure.

7.2.6 Value of IjasCoin

Once accumulated, the value of the IjasCoin may significantly fluctuate due to various reasons. The investment in the IjasCoin can even lead to a total loss. There is no guarantee that users can acquire sufficient IjasCoin for their usage within the IjasCoin Ecosystem and external platforms and neither is there a guarantee that users can cash out their IjasCoin via external platforms. Furthermore, every IjasCoin holder naturally carries the risk of volatile exchange rate fluctuations of the IjasCoin towards both other cryptocurrencies and Fiat money exchange rates.

7.3.7 Bitcoin and Ethereum Volatility

The IjasCoin may be significantly influenced by digital currency market trends and the IjasCoin value may be severely depreciated due to non-IjasCoin related events in the digital currency markets. Cryptocurrencies exchange rate volatility may impact the company's ability to provide services at the indicated prices. Assumptions with respect to the foregoing involve, among other things, judgments about the future economic, competitive and market conditions and business decisions, most of which are beyond the control of the IjasCoin team and are therefore difficult or impossible to accurately predict. Furthermore, the IjasCode Foundation may not succeed in creating the necessary momentum and acceptance for the IjasCoin, which may result in low liquidity and depletion of trades. The positions and plans outlined in this Whitepaper may be altered as the project progresses.

2.3.12 Delayed Projects & Competition Although the IjasCoin team believes that its assumptions underlying its forward-looking statements are reasonable, any of these may prove to be inaccurate. As a result, the IjasCoin team can offer no assurances that the forward-looking statements contained in this Whitepaper will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements contained herein, the inclusion of such information may not be interpreted as a warranty on the part of the IjasCode Foundation or any other entity belonging to the IjasCoin Ecosystem that the objectives and plans of the IjasCoin project will be successfully achieved. Competition may introduce the same or better prediction market solutions and cause the IjasCode Foundation to lose market share and eventually fail to deliver on its business goals.

8. THE VISION & MISSION OF THE IJASCOIN TOKEN

The vision & mission of the IjasCoin is to become the main incentivized proximity digital Token, to be convertible into Ijascode Products and Services, to be traded within the Ijascode Community and its participants around the world, through this becoming accepted by consumers as well as merchants and servicers worldwide.

9. THE IJASCOIN

A total of 28 billion IjasCoin Tokens were created and issued on the Ethereum blockchain protocol using a smart contract. The IjasCoin is freely transferable. With its advanced functions and active ecosystem, Ethereum fits the IjasCoin. The coins contain high confirmation speeds and are 99.99% immune to fraudulent activities.

The IjasCoin does not indicate ownership of a company. Therefore, holders of the IjasCoin will neither participate in profits or revenues generated by the IjasCoin Ecosystem, nor any kind of dividends or interest. However, the value of the IjasCoin is expected to strongly increase. The market capitalization of the IjasCoin will reflect the billion-dollar business that will rely on Ijascode HandsOff Marketing System. The global acceptance and recognition of Ijascode HandsOff Marketing System as a safe and secure harbor will make the IjasCoin one of the leading payment means worldwide. Therefore, holders of IjasCoin will not only enjoy protection against inflation and vague governments and economies, but also have the opportunity to participate in the value increase which will be achieved in the future. Such value increase can be realized by everybody through the massive circulation of the IjasCoin, or through the purchase of Ijascode goods and services. Furthermore, IjasCoin can be exchanged for real Ijascode Marketing products and services or IjasShop listed products and services at any time, whereby a certain quantity of IjasCoin is needed to process any transaction.

The IjasCoin is a speculative digital coin that is available worldwide, although its value is largely related to the projects and developments of Ijascode HandOff Marketing System. It has a quantity commitment of 28 billion tokens.

The IjasCoins will be available on major cryptocurrency exchange platforms such as Poloniex, Bithumb, Bitfinex, Bittrex, etc. The coins will be permitted to float and be traded p2p. The price of the IjasCoin will be determined by market forces and cryptocurrency exchange mechanisms, as well as by the global performance of Ijascode products and services prices. Users will be able to send and receive the IjasCoin using cryptocurrencies. The IjasCoin is integer and is not available in fractional amounts.

The value of the IjasCoin will reflect the degree of penetration of the worldwide payment systems and, to a substantial extent, the price development of Ijascode HandsOff Marketing System. The more IjasCoin will be used – thus driving customer adoption – the greater the demand for the IjasCoin will be. The popularity of the IjasCoin and the IjasCoin Ecosystems will most probably grow very fast.

9.1 Comparison of IjasCoin with other tokens

The IjasCoin is exchangeable for Ijascode HandsOff Marketing System products and services at any time, whereby certain quantities of IjasCoins are needed for an exchange into Ijascode products and services. Furthermore, the IjasCoins will be exchangeable for legal tender and other recognized cryptocurrencies, e.g. Bitcoin, Ethereum, Litecoin, Dash, XEM, etc.

9.2 The future Advantages of the IjasCoin:

- Can be used by any industry as an incentivized digital token
- Related to Ijascode HandsOff Marketing System
- Appropriate quantities of IjasCoins are exchangeable into Ijascode and its partners Products and Services, at any time
- Facilitation of real-time payments anywhere and anytime
- Cost-efficient
- Free and borderless transferable
- Increasing substantial number of points of acceptance
- Low fees payable by merchants for the use of the IjasCoin and the IjasCoin Ecosystem

10. DISCLAIMER

- IMPORTANT NOTICE -

PLEASE READ THIS SECTION AND THE FOLLOWING SECTIONS ENTITLED “DISCLAIMER OF LIABILITY”, “NO REPRESENTATIONS AND WARRANTIES”, “REPRESENTATIONS AND WARRANTIES BY YOU”, “CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS”, “MARKET AND INDUSTRY INFORMATION AND NO CONSENT OF OTHER PERSONS”, “NO ADVICE”, “NO FURTHER INFORMATION OR UPDATE”, “RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION”, “NO OFFER OF SECURITIES OR REGISTRATION” AND “RISKS AND UNCERTAINTIES” CAREFULLY.

IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S).

The IjasCoin is not intended to constitute securities or financial instruments in any jurisdiction.

This Whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. This Whitepaper does not constitute or form part of any opinion on any advice to sell, or any solicitation of any offer by the seller of the IjasCoin (the “Token Provider”) to purchase any IjasCoin nor shall it or any part of it nor the fact of its presentation form the basis of, or be relied upon in connection with, any contract or investment decision.

The IjasCoin main provider and original contract owner is the IjasCode HandsOff Marketing System. No person is bound to enter into any contract or binding legal commitment in relation to the sale and purchase of the IjasCoin and no cryptocurrency or other form of IjasCoin is to be accepted on the basis of this Whitepaper.

Any agreement as between the Token Provider and you as a holder, and in relation to any sale and purchase, of the IjasCoin (as referred to in this Whitepaper) is to be governed by only a separate document setting out the terms and conditions (the “T&Cs”) of such agreement. In the event of any inconsistencies between the T&Cs and this Whitepaper, the former shall prevail.

No regulatory authority has examined or approved of any of the information set out in this Whitepaper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with.

There are risks and uncertainties associated with the IjasCoin, the different elements of the IjasCode Ecosystem and their respective services, businesses and operations (each as referred to in this Whitepaper).

This Whitepaper, any part thereof and any copy thereof must not be taken or transmitted to any country where distribution or dissemination of this Whitepaper is prohibited or restricted. No part of this Whitepaper is to be reproduced, distributed or disseminated without including this section and the following sections entitled “Disclaimer of Liability”, “No Representations and Warranties”, “Representations and Warranties By You”, “Cautionary Note On Forward-Looking Statements”, “Market and Industry Information and No Consent of Other Persons”, “Terms Used”, “No Advice”, “No Further Information or Update”, “Restrictions On Distribution and Dissemination”, “No Offer of Securities Or Registration” and “Risks and Uncertainties”.

DISCLAIMER OF LIABILITY To the maximum extent permitted by the applicable laws, regulations and rules, the IjasCode Foundation or any entity or person being a part of the IjasCode Ecosystem shall not be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this Whitepaper or any part thereof by you.

NO REPRESENTATIONS AND WARRANTIES The IjasCode Foundation and any entity or person being a part of the IjasCode Ecosystem does not make or purport to make, and hereby disclaims, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this Whitepaper.

REPRESENTATIONS AND WARRANTIES BY YOU By accessing and/or accepting possession of any information in this Whitepaper or such part thereof (as the case may be), you represent and warrant to the IjasCode Foundation or any entity or person being a part of the IjasCode Ecosystem as follows:

(a) you agree and acknowledge that the IjasCoin does not constitute securities in any form in any jurisdiction;

(b) you agree and acknowledge that this Whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment have to be accepted on the basis of this Whitepaper;

(c) you agree and acknowledge that no regulatory authority has examined or approved of the information set out in this Whitepaper, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of this Whitepaper to you does not imply that the applicable laws, regulatory requirements or rules have been complied with; (d) you agree and acknowledge that this Whitepaper, the undertaking and/or the completion of the Incentivized program, or future trading of the IjasCoin on any cryptocurrency exchange, shall not be construed, interpreted or deemed by you as an indication of the merits of the IjasCode Foundation or any entity or person being a part of the IjasCode Ecosystem; (e) the distribution or dissemination of this Whitepaper, any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to the IjasCode Foundation or any entity or person being a part of the IjasCode Ecosystem;

(f) you agree and acknowledge that in the case where you wish to purchase any IjasCoin as a Utility Token, the IjasCoin is not to be construed, interpreted, classified or treated as:

- any kind of currency other than cryptocurrency;
- debentures, stocks or shares issued by any person or entity
- rights, options or derivatives in respect of such debentures, stocks or shares;
- units in a collective investment scheme;
- units in a business trust;
- derivatives of units in a business trust; or
- any other security or class of securities.

(g) because of some restrictions set by your own government, you are fully aware of and understand that you are not eligible to purchase any IjasCoin if you are a citizen, resident (tax or otherwise) or green card holder of the United States of America or a citizen or resident of Canada, the People's Republic of China or the Republic of Singapore;

(h) you have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology;

(i) you are fully aware and understand that in the case where you wish to purchase any IjasCoin, there are risks associated with the IjasCoin and the IjasCode Ecosystem and their respective services, business and operations;

(j) you agree and acknowledge that neither IjasCode Foundation nor any entity or person being a part of the IjasCode Ecosystem is liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this Whitepaper or any part thereof by you; and rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss;

(k) all of the above representations and warranties are true, complete, accurate and non-mis-leading from the time of your access to and/or acceptance of possession this Whitepaper or such part thereof (as the case may be).

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in this Whitepaper, statements made in press releases or in any place accessible by the public and oral statements that may be made by IjasCode Foundation and/or any entity or person being a part of the IjasCode Ecosystem, including their respective directors, executive officers or employees acting on behalf of them that are not statements of historical fact, constitute “forward-looking statements”. Some of these statements can be identified by forward-looking terms such as “aim”, “target”, “anticipate”, “believe”, “could”, “estimate”, “expect”, “if”, “intend”, “may”, “plan”, “possible”, “probable”, “project”, “should”, “would”, “will” or other similar terms. However, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding the IjasCode Foundation’s financial position, business strategies, plans and prospects and the future prospects of the industry which the IjasCode Foundation, and/or any other entity or person being a part of the IjasCode Ecosystem is in are forward-looking statements. These forward-looking statements, including but not limited to statements as to IjasCode Foundation’s or the IjasCode Ecosystem revenue and profitability, prospects, future plans, other expected industry trends and other matters discussed in this Whitepaper are matters that are not historical facts, but only predictions.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of the IjasCode Foundation and the IjasCode Ecosystem to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, amongst others:

- (a) changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem conducts its respective businesses and operations;
- (b) the risk that the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem may be unable or execute or implement their respective business strategies and future plans;
- (c) changes in interest rates and exchange rates of fiat currencies and cryptocurrencies;
- (d) changes in the anticipated growth strategies and expected internal growth of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem;
- (e) changes in the availability and fees of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem in connection with their respective businesses and operations;

(f) changes in the availability and salaries of employees who are required by the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem to operate their respective businesses and operations;

(g) changes in preferences of customers of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem;

(h) changes in competitive conditions under which the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem operate, and the ability of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem to compete under such conditions;

(i) changes in the future capital needs of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem and the availability of financing and capital to fund such needs;

(j) war or acts of international or domestic terrorism;

(k) occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem;

(l) other factors beyond the control of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem; and (m) any risk and uncertainties associated with the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem and their businesses and operations, the IjasCoin and the IjasCode eWallet (each as referred to in the Whitepaper).

All forward-looking statements made by or attributable to the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem or persons acting on behalf of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem are expressly qualified in their entirety by such factors.

Given that risks and uncertainties that may cause the actual future results, performance or achievements of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem to be materially different from that expected, expressed or implied by the forward-looking statements in this Whitepaper, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the date of this Whitepaper.

Neither the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem nor any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem will be as discussed in those forward-looking statements. The actual results, performance or achievements of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem may differ materially from those anticipated in these forward- looking statements. Nothing contained in this Whitepaper

is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem. Further, the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem disclaim any responsibility to update any of those forward-looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.

MARKET AND INDUSTRY INFORMATION AND NO CONSENT OF OTHER PERSONS

This Whitepaper includes market and industry information and forecasts that have been obtained from internal surveys, reports and studies, where appropriate, as well as market research, publicly available information and industry publications. Such surveys, reports, studies, market research, publicly available information and publications generally state that the information that they contain has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of such included information. Save for the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem and their respective directors, executive officers and employees, no person has provided his or her consent to the inclusion of his or her name and/or other information attributed or perceived to be attributed to such person in connection therewith in this Whitepaper and no representation, warranty or undertaking

is or purported to be provided as to the accuracy or completeness of such information by such person and such persons shall not be obliged to provide any updates on the same.

While the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem have taken reasonable actions to ensure that the information is extracted accurately and in its proper context, the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem have not conducted any independent review of the information extracted from third party sources, verified the accuracy or completeness of such information or ascertained the underlying economic assumptions relied upon therein. Consequently, neither the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem, nor their respective directors, executive officers and employees acting on their behalf makes any representation or warranty as to the accuracy or completeness of such information and shall not be obliged to provide any updates on the same.

TERMS USED

To facilitate a better understanding of the IjasCode being offered for purchase by the IjasCode Foundation, and the businesses and operations of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem, certain technical terms and abbreviations, as well as, in certain instances, their descriptions, have been used in this Whitepaper. These descriptions and assigned meanings should not be treated as being definitive of their meanings and may not correspond to standard industry meanings or usage. Words importing the singular shall, where applicable, include the plural and vice versa and words importing the masculine gender shall, where applicable, include the feminine and neuter genders and vice versa. References to persons shall include corporations.

NO ADVICE

No information in this Whitepaper should be considered to be business, legal, financial or tax advice regarding IjasCode, the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem and the IjasCode eWallet (each as referred to in the Whitepaper). You should consult your own legal, financial, tax or other professional adviser regarding the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem and their respective businesses and operations, the IjasCoin and the IjasCode eWallet (each as referred to in the Whitepaper). You should be aware that you may be required to bear the financial risk of any purchase of IjasCoin for an indefinite period of time.

NO FURTHER INFORMATION OR UPDATE

No person has been or is authorized to give any information or representation not contained in this Whitepaper in connection with the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem and their respective businesses and operations, the IjasCoin and the IjasCode eWallet (each as referred to in the Whitepaper) and, if given, such information or representation must not be relied upon as having been authorized by or on behalf of IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem. The IjasCoin (as referred to in the Whitepaper) shall not, under any circumstances, constitute a continuing representation or create any suggestion or implication that there has been no change, or development reasonably likely to involve a material change in the affairs, conditions and prospects of IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem or in any statement of fact or information contained in this Whitepaper since the date hereof.

RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION

The distribution or dissemination of this Whitepaper or any part thereof may be prohibited or restricted by the laws, regulatory requirements and rules of any jurisdiction. In the case where any restriction applies, you are to inform yourself about, and to observe, any restrictions which are applicable to your possession of this Whitepaper or such part thereof (as the case may be) at your own expense and without liability to IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem. Persons to whom a copy of this Whitepaper has been distributed or disseminated, provided access to or who otherwise have the Whitepaper in their possession shall not circulate it to any other persons, reproduce or other-wise distribute this Whitepaper or any information contained herein for any purpose whatsoever nor permit or cause the same to occur.

NO OFFER OF SECURITIES OR REGISTRATION

This Whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. No person is bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of this Whitepaper.

Any agreement in relation to any sale and purchase of IjasCoins (as referred to in this Whitepaper) is to be governed by only the T&Cs of such agreement and no other document. In the event of any inconsistencies between the T&Cs and this Whitepaper, the former shall prevail.

Because of some restrictions set by your own government, you might not be eligible to purchase any IjasCoin (as referred to in this Whitepaper) if you are a citizen, resident (tax or otherwise) or green card holder of the United States of America or a citizen or resident of Canada, the Peoples Republic of China or the Republic of Singapore. No regulatory authority has examined or approved of any of the information set out in this Whitepaper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with.

RISKS AND UNCERTAINTIES

Prospective purchasers of IjasCoins (as referred to in this Whitepaper) should carefully consider and evaluate all risks and uncertainties associated with the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem and their respective businesses and operations, the IjasCoins and the IjasCode eWallet (each as referred to in the Whitepaper), all information set out in this Whitepaper and the T&Cs prior to any purchase of IjasCoins. If any of such risks and uncertainties develops into actual events, the business, financial condition, results of operations and prospects of the IjasCode Foundation and/or any other entity being a part of the IjasCode Ecosystem Provider could be materially and adversely affected. In such cases, you may lose all or part of the value of the IjasCoins.

JURISDICTION AND GOVERNING LAW

The IjasCoin Token, any related material and especially the content of this Whitepaper, the Whitepaper itself and any associated documents and material and any conflict arising from it or in relation to it shall be exclusively governed by the laws of USA. The courts of USA shall have the whole and exclusive jurisdiction.
